Belmont Equipment

The Bel-Cat product family provides dentists with the tools for obtaining crystal-clear volumetric imaging for rapid assessment, planning, and implementation of highly effective treatment for patients. [Product Details...]

BIOLASE Technology

The NewTom VG3 is an all-new 3-in-1 imaging system that will be available starting this spring. [Product Details...]

BIOLASE Technology

The NewTom 5G features an open pass-through gantry and a motorized reclining chair that enable superior image quality and new clinical applications. [Product Details...]

BIOLASE Technology

The NewTom VGi features medical-grade technology at a fraction of the radiation exposure and cost. [Product Details...]

Carestream Dental

These CBCT systems are designed to integrate into your officeâ€™s clinical workflow. [Product Details...]

Gendex Dental Systems

The GXDP-700 Series starts with a digital panoramic with sophisticated styling and an ergonomic design, including an advanced touchscreen interface and award-winning SRT technology. [Product Details...]

Genoray America

VOLUX21C is a true all-in-one unit, providing all major x-ray imaging capabilities in one unit. [Product Details...]

ImageWorks

The Panoura 18S is a 3-in-one system that can acquire panoramic, cephalometric, and 3-D images. [Product Details...]

Imaging Sciences International

The i-CAT Precise, with scan sizes up to 8 cm in height, is well suited for implants and restoration planning and oral surgery procedures. [Product Details...]

Instrumentarium Dental

The Orthopantomograph OP300 is the most comprehensive 3-in-one imaging platform designed for today and tomorrow. [Product Details...]

J. Morita USA

Highly refined, 3D Accuitomo 170 is the fourth generation of the Accuitomo product line. [Product Details...]

MyRay/Cefla Dental

The Hyperion X9â€™s 3-D CBCT module is available with an 11 x 8 cm or 11 x 5 cm image detector and a variety of fields of view, including 5 x 5 cm. [Product Details...]

PLANMECA

The ProMax 3D provides clear, dependable volumetric imaging in a 3-D format with limited patient radiation (about half the radiation of a CT scan). [Product Details...]

PreXion

The PreXion3D Elite CBCT scanner is designed for dentists who demand the highest diagnostic clarity and detail. [Product Details...]

Sirona Dental Systems

As the first comprehensive 3-D imaging solution, GALILEOS combines x-ray diagnostics, implant visualization, treatment planning, and patient communication in one tool. It is now available with CEREC CAD/CAM integration. [Product Details...]

SOREDEX

The SCANORA 3D offers superior versatility by combining cone beam 3-D imaging, with 4 selectable fields of view, and true, dedicated panoramic imaging. [Product Details...]

Suni Medical Imaging

Suni 3D Panoramicâ€™s 9 easy-to-use programs use state-of-the-art technology to provide superior image quality and extensive diagnostic capability: standard, hemi-panoramic, frontal dentition, sinus, TMJ open and closed, incisor clear, orthogonal, canal cle [Product Details...]

Suni Medical Imaging

Suni 3D Panoramicâ€™s 9 easy-to-use programs utilize state-of-the-art technology to provide superior image quality and extensive diagnostic capability: standard, hemi-panoramic, frontal dentition, sinus, TMJ open and closed, incisor clear, orthogonal, canal [Product Details...]

Suni Medical Imaging

The Suni3D Cone Beamâ€™s optimal field of view and superior image quality allow for accurate, exact diagnoses. [Product Details...]

Vatech America

The PaX-Duo3D Cone Beam CT allows automatic switching between panoramic and CT sensors and also offers 3-D and 2-D scans. [Product Details...]
