## **Brasseler USA Booth (video)**

Posted On Nov 29, Posted by <u>Dentistry Today</u> Category <u>Live Coverage at the 2010 Greater</u> New York Dental Meeting

At the Brasseler USA booth we saw the EndoPro 270. It's a cordless heating unit that makes it easy to seal off the gutta-percha. It heats up to 270°C then can quickly cool down. It can be used for creating post space. It utilizes its ergonomic design and the newest technology to deliver unprecedented precision. Watch the demo on the next page. Just click read more.
